Re: Emergency Rental Assistance Program  
U.S. Department of Treasury

From: Mark Charlie, CEO *MC*

Date: JAN 22 2021

AVCP RHA received notification from the U. S. Treasury Department of the Emergency Rental Assistance Program (ERA) to provide funding assistance to tenants to pay rent and utilities who are unable to pay as a result of the COVID-19 pandemic. The funding is made available to tribes and TDHE's to apply and be operated.

As stated the ERA funding is funded and will be implemented by the U.S. Treasury. The Treasury Department is developing the program and has had sessions with tribe's and TDHE's on how the program will be designed and implemented.

Attached is two documents issued by the U.S. Treasury. The first is Frequently Asked Questions and the second is Payments to Tribal Communities. The documents address the issues and questions from the tribal consultation session(s).

For your information AVCP RHA submitted its intent to apply before the filing deadline and continue to attend tribal consultations. As procedures are developed we will keep you informed.

We will keep you informed about this opportunity as more guidance is received. Contact us with any questions or comments.
